

Checklist for Packing

- cell phones allowed but check with your long distance plan! □ Electrical connections are the same as the US in Canada.
- Cell phones are for communication and for taking pictures, but in general we will leave our cell phones in our rooms during the day. Only a few leaders [like the park leader] need to have a cell phone to communicate with the church or call 911. We will have one phone day for taking pictures. Even in your off time, of course check in with your parents, but try to stay present with our team and not on social media sites. Its more kind to your teammates and your friends at home - they won't be insanely jealous that they are not with you! You can post some pictures later, from home.
- If you plan to use a charge/debit card to pay for things, call in your travel notification!
- ** Border identification (see Border ID page for details)
